

## Intrusion Prevention, Everywhere!

### Reflex Interceptor 1000

Next-Generation Intrusion Prevention for Gigabit Networks

Reflex Interceptor 1000

#### Features:

- ✓ Best of Breed IPS
- ✓ Multi-Vector Threat Detection Capabilities
- ✓ Dual Processor, Quad Core Design
- ✓ 1 Gigabit of Throughput
- ✓ 8 10/100/1000 Copper Interfaces
- ✓ 4 Modular Fiber Interfaces
- ✓ Supports up to 6 bridge configurations

#### Technical Specifications

- Intel Chipsets
- 460W 1+1 ATX Redundant Power Supplies
- CE, FCC Class A
- RoHS Compliant
- 2U Rack Mountable Chassis  
424x600x88mm; 25 Kg

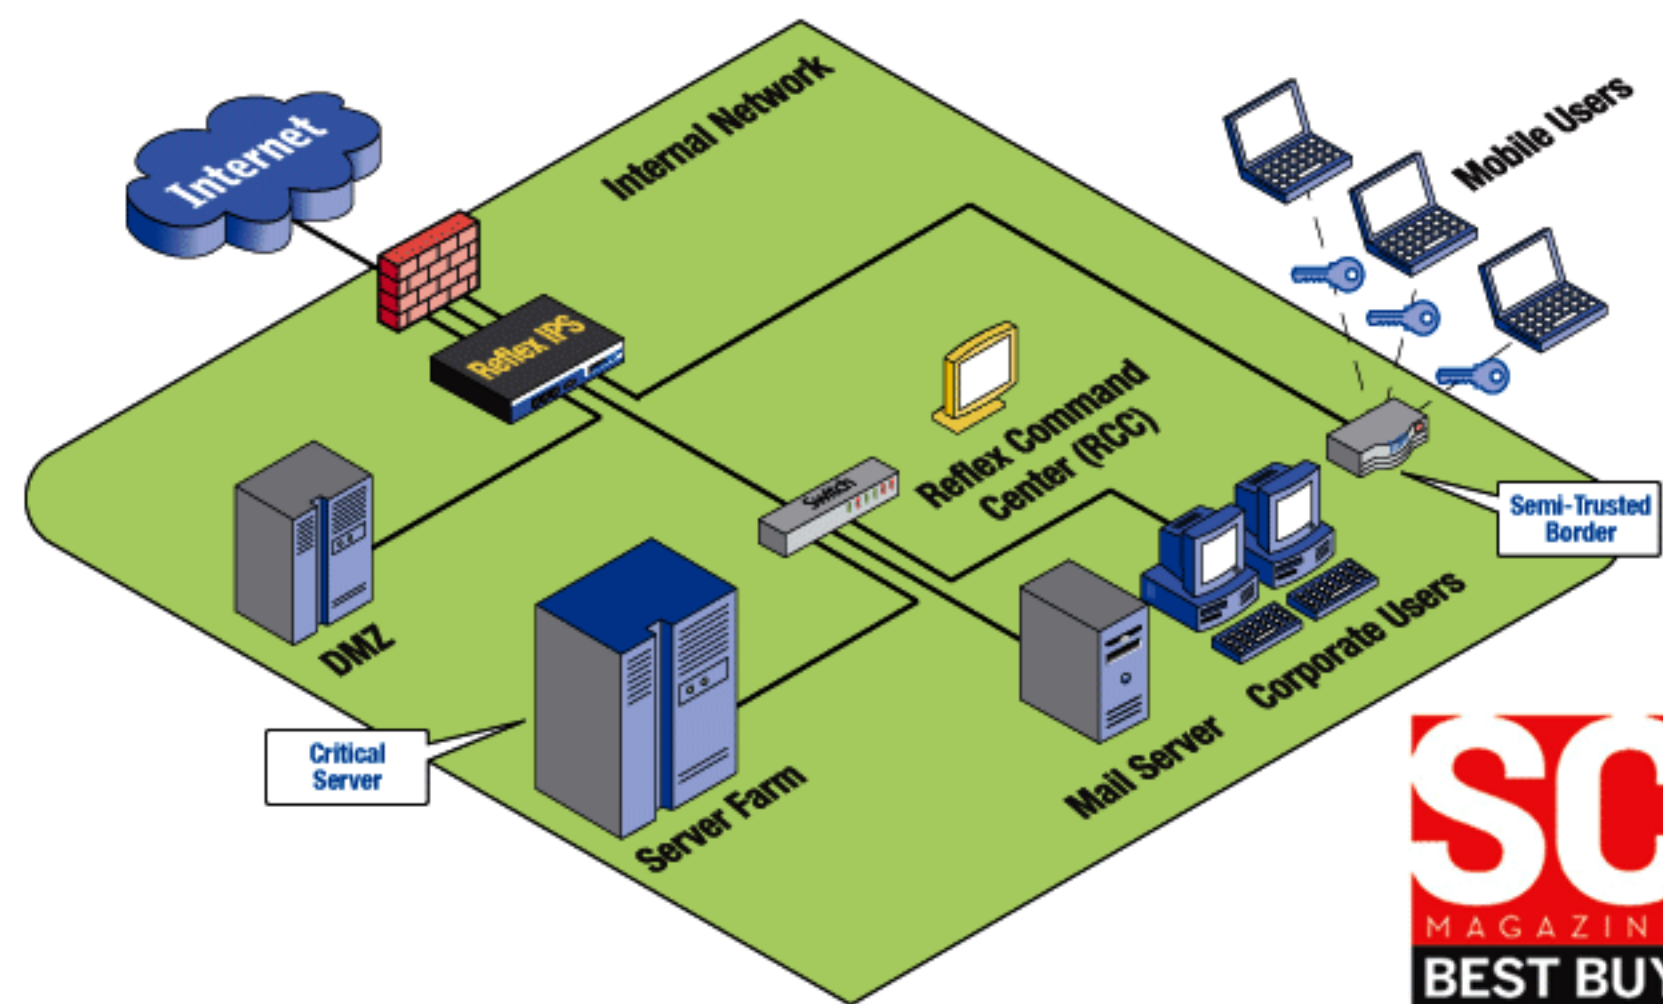

#### Gigabit Intrusion Prevention for the Core and Perimeter

Implementing effective network security is a tough challenge. Business demands fast, reliable communication with remote offices, partners and customers, but at the same time, your network, servers and user stations need to be protected against malicious intruders.

Fortunately, Reflex Security helps you deploy essential security tools that won't complicate your life. The Reflex Interceptor 1000 is a high-performance IPS appliance featuring 1 Gbps multi-vector threat inspection, multi-core CPU technology, with extensible functionality and flexible, high-density port configurations.

#### Defend Your Network with Award-Winning Reflex IPS Protection

The Reflex Interceptor 1000 is based on the award-winning Intrusion Prevention technology SC Magazine proclaimed to be its "top performer" and "Best Buy" winner of its 2006 IPS Group Test. Easy to use and centrally-managed, the Reflex Interceptor 1000 is highly accurate in deflecting attacks and network threats, with few false positives. Its versatile multi-bridge design provides superior performance at both the network core and perimeter.

#### About Reflex Security, Inc.

Reflex Security, Inc., a pioneer in network intrusion prevention, delivers real-time network security through its innovative products and IPS Everywhere approach to enterprise-wide security. Reflex Security accurately blocks internal and external security threats to prevent today's most serious network attacks. SC Magazine recently named Reflex Security the top performer in its 2006 Group Test of IPS vendors, awarding its coveted "Best Buy" honor. Adaptable, reliable, and easy to use, Reflex Security simplifies enterprise security for business networks and virtualized networks of all sizes.
